

## Luisa Ricky

Luisa was able to kick start her career when she designed attendants of a new concept wellness application that changed how people mentally practiced. The app could be downloaded and used immediately, and this made it to attract much appreciation for the simplicity that accompanied its use. It supported its users beyond the basic features of letting them easily use the platform, and giving them the feeling of being seen and heard.

Now she is a successful consultant and an inspire, with companies, from the tech industry leaders to the start- up businesses using her services, to bring into the UX layout a new level of challenges. Her combination of empathy together with creativity has therefore placed her in a very special place as a pioneer in the field. Each project she contributes to, reflects her core principle that technology has to be an organic part of people's lives.
